<b>SITE PLAN REQUIRED</b> Site plans must be submitted with the application and must illustrate: <ul style="list-style-type: none"> <li>Property's shape and dimensions</li> <li>Location of roads and precise location of man-made features such as buildings, driveways, etc.</li> <li>Any natural or man-made water features, i.e., creeks, ponds, etc.</li> <li>Known utilities and easements</li> <li>Any physical changes to be made on-site pertaining to application                         <ul style="list-style-type: none"> <li>✓ Use arrows to show distance from buildings to setbacks</li> <li>✓ Use solid lines to indicate existing structures</li> <li>✓ Use dotted lines to indicate the proposed structure(s)</li> </ul> </li> </ul> Site plans must be drawn to scale: 1" = 20' or 1" = 100' Minimum size is 8 1/2" x 11" paper		<b>PLEASE READ AND SIGN</b> A permit becomes null and void if work or construction authorized is not commenced within 180 days, or if construction or work is suspended or abandoned for a period of 180 days at any time after work is commenced.  It is recommended that you perform a dig test for safety purposes (please call 811 or 940-668-4540 for assistance). Dig tests can identify gas lines and other hazards.  Separate permits are required for each accessory structure and for any mechanical, electrical or plumbing that may be required.  All permits require final inspection. Applicant is responsible for calling to schedule final inspection.  <i>I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.</i>
